## GAMMA80

POME FRUIT  
PROCESSING

Pumping

### Description

The mash pump is designed for the transport of fruit mash from the mill to the press.

#### Main features:

- Entirely made of stainless steel.
- Mounted on trolley.
- Equipped with loading hopper and screw.
- Volumetric pump - transport of mash with elliptic rotor.
- The mash is pumped without great pressure and therefore stays intact.
- Speed regulation with frequency regulator on the central command box.
